## **Instructions for the Submission of a Research Proposal for MSc**

During the first year of your studies you are required to submit a brief description of your research proposal. This will be accompanied by a form to be approved by the graduate committee. The following instructions and details to be included in the proposal:

**Student's name**

**Research Advisor**

**Co- Advisor** (if any)

**Research title in Hebrew**

**Research title in English**

**Literature Review**

A brief introduction regarding the current state of the research field, with emphasis on the specific points the research will address.

**Research goal**

Emphasize the research goal and research hypotheses, clarifying the expected innovation of the proposed study.

**Work plan**

The work plan must describe in detail how the proposed research will address the problem presented in the previous section. It is recommended to specify alternative options and their impact on the direction of research.

**Research methods**

Details of the research methods that will be used in order to meet the research goals and the work plan.

**Bibliography**

Attention must be paid to the proper presentation of sources from the literature (bibliography) and to their reference inside the text, as customary in a scientific publication.

**Please note, the proposal should be up to 5 pages long, not including bibliography.**
